

## **P&O CENSORED COVER**

By John Nelson

Again, I don't remember seeing any previous reference in the Bulletin to a PASSED BY CENSOR perforator as per the illustration on the next page.

Sowneone who knows about censored covers might be able to explain why a Letter from P&O posted in Chatham on 24th July 1915 to an address in Somerset needed to be censored. I realise that it was wartime and that there was a naval dockyard at Chatham but there must be more to it than that.
